# ABOUT THE WINEMAG.CO.ZA TASTING PROGRAMME 2021

Winemag.co.za is set to produce 14 category reports over the course of the year with multinational financial services company Prescient as sponsor. Each report will be based on the outcome of a blind tasting of wines entered within a specific category.

A report includes key findings, tasting notes for the top wines, buyer's guide and scores on the 100-point quality scale for all wines entered. Upon release, producers can purchase both Top 10 and regular rating stickers – consumers are encouraged to look out for these in the retail environment.

The year culminates in a gala event when the individual best wine in each category will be celebrated. These top-performing wines will subsequently be shown at tastings in both Johannesburg and London.

# JUDGING PROCEDURES

The judging panel was chaired by me and further consisted of two trusted colleagues, namely Roland Peens and James Pietersen of Wine Cellar, Cape Town merchants and cellarers of fine wine. We tasted blind, labels out of sight. Ratings were done according to the 100-point system, final scores awarded on the basis of discussion that involved retasting where necessary rather than relying solely on arithmetic averaging.

# KEY FINDINGS

This year's Prescient Chardonnay Report attracted 93 entries from 67 producers. With 51 or 55% of the line-up rating 90-plus on the 100-point quality scale, this was a good showing for the category but not quite as good as last year where 68% of the line-up were 90-points or above. This time around most entries were from 2020 whereas last year, it was 2019 to the fore and the panel's feeling was that 2020 is a slightly lesser vintage when it comes to Chardonnay, the wines not having the same fruit concentration that marked 2019.

As is well-known, Chardonnay is highly malleable in the cellar and responds well to a variety of winemaking techniques. That said, some of the more premium examples in this tasting often looked a little overdone, clean fruity aromas and flavours replaced by honeyed, waxy characters – the suspicion being that in attempting to build in extra complexity to justify a higher price tag, elegance and freshness are being lost. Wines that ought to be capable of maturing over at least a five-year period already show signs of tiring and it is hoped that the vexed issue of premox (premature oxidation) that dogged Burgundy not so long ago is not starting to feature here.

At the other end of the spectrum, there were some rather plain wines, not commercially unacceptable but certainly lacking any real distinction. Chardonnay is, of course, nothing if not adaptable and it can make pleasant enough wine under all sorts of growing conditions.

Generally, however, local Chardonnay seems to achieve the best fruit expressions from vineyards planted in cooler areas. Out of this year's Top 10, three examples were from famously cool Elgin and one was a Stellenbosch-Elgin blend. In addition, Ceres Plateau, Constantia and Hemel-en-Aarde Ridge, which again might all be considered cool climate growing areas, also featured.

The average price of the 51 wines to rate 90-plus is R266 a bottle and of the Top 10 is R273. Offering the best quality relative to price is Franschoek Cellar Our Town Hall Unoaked 2021 with a rating of 91 and selling for R72.50 a bottle.
