ABOUT THE WINEMAG.CO.ZA TASTING PROGRAMME 2021

Winemag.co.za is set to produce 14 category reports over the course of the year with multinational financial services company Prescient as sponsor. Each report will be based on the outcome of a blind tasting of wines entered within a specific category.

A report includes key findings, tasting notes for the top wines, buyer's guide and scores on the 100-point quality scale for all wines entered. Upon release, producers can purchase both Top 10 and regular rating stickers – consumers are encouraged to look out for these in the retail environment.

The year culminates in a gala event when the individual best wine in each category will be celebrated. These top-performing wines will subsequently be shown at tastings in both Johannesburg and London.

JUDGING PROCEDURES

The judging panel was chaired by me and further consisted of two trusted colleagues, namely Ndabezinhle Dube, Food & Beverage Operations Manager at the President Hotel, Cape Town and James Pietersen of Wine Cellar, Cape Town merchants and cellarers of fine wine. We tasted blind, labels out of sight. Ratings were done according to the 100-point system, final scores awarded on the basis of discussion that involved retasting where necessary rather than relying solely on arithmetic averaging.

KEY FINDINGS

This year's Prescient Sauvignon Blanc Report attracted 125 entries, 76 being Unwooded, 29 being Wooded and 20 being blends. Of the Unwooded, 39 of the line-up (51%) rated 90-plus on the 100-point quality scale; of the Wooded, 17 (59%) rated 90-plus; and of the blends 17 (85%) rated 90-plus. Overall, an immensely strong showing.

This may come as a surprise to some observers, Sauvignon Blanc often dismissed on account of its tendency to produce aromatic, crisp but ultimately unchallenging wines designed to appeal to the lowest common denominator of alcoholic beverage consumers. And, it must be said, most Sauvignon Blanc is fermented at relatively low temperatures in stainless steel with the intention of preserving every bit of youthful fruit.

What the panel encountered during this tasting, however, is that Sauvignon Blanc, when cultivated under favourable growing conditions and given thoughtful treatment in the cellar, can produce wines of real fruit density and nuance.

There is, of course, nothing wrong with Sauvignon Blanc from high-cropping vineyards in warmer areas made to be drunk as young as possible. On the contrary, such wines are hugely commercially successful and Sauvignon Blanc was the fourth most widely planted variety in South Africa at the end of 2020 with 9 831 ha in the ground, the equivalent of 10.7% of the national vineyard.

However, when Sauvignon Blanc is planted in a cooler site, either maritime-influenced or at altitude, the variety delivers complexity and balance - Constantia, Darling, Durbanville, Elgin and Elim plus certain parts of Stellenbosch are all to the fore once again. Sauvignon Blanc can appear extravagantly aromatic without much happening on the palate but South Africa's best examples now deliver real flavour intensity, too.

The use of oak and the addition of Semillon as a blending component have long been tools to add extra dimension to Sauvignon Blanc and this is now so common a practice that making a distinction between unwooded, wooded and blends is a matter of semantics. Among the Unwooded Top 10, five contained a sub-15% portion of Semillon as allowed by Wine and Spirit Board regulations while oakling regimes across all the most highly rated wines are nothing if not intricate with all manner of vessels being used, some more neutral than others.

Of interest is that while there might not be much to choose between Unwooded, Wooded and Sauv-Sem Blends in terms of sheer quality, producers still try to position them differently in terms of the amount of money expected: The average cellar-door price of the Unwooded Sauvignon Blanc Top 10 was R123 a bottle; the average price of the Wooded Top 10 was R230 and the average price of the Sauv-Sem Blends Top 10 was R261.

Wade Bales, as producer of the Sauv-Sem blend judged best overall, wins a new 225-litre Sylvain Blanc barrel worth €879 (the equivalent of R15 150 at the time of writing) from Tonnellerie Sylvain.
