# ABOUT THE WINEMAG.CO.ZA TASTING PROGRAMME 2022

Winemag.co.za produced a series of category reports over the course of the year with multinational financial services company Prescient as sponsor. Each report was based on the outcome of a blind tasting of wines entered within a specific category.

A report includes key findings, tasting notes for the top wines, buyer's guide and scores on the 100-point quality scale for all wines entered. Upon release, producers can purchase both Top 10 and regular rating stickers – consumers are encouraged to look out for these in the retail environment.

## JUDGING PROCEDURES

The judging panel was chaired by me and further consisted of two trusted colleagues, namely wine writer Malu Lambert and James Pietersen, CEO of Wine Cellar, Cape Town merchants and cellarers of fine wine.

We tasted blind, labels out of sight. Ratings were done according to the 100-point system, final scores awarded on the basis of discussion that involved retasting where necessary rather than relying solely on arithmetic averaging.

# KEY FINDINGS

The 2019 vintage is generally considered challenging, the harvest initially looking promising with favourable weather conditions contributing to excellent grape analyses up until the end of February, but unusually cold, rainy weather arrived in March which made for slow ripening.

Even so, wines from this vintage showed remarkably well in the tasting for this year's Cabernet Sauvignon Report – Cab, of course, is a late variety and generally seems to have delivered elegant wines, lower sugars leading to lower alcohols.

There were 64 entries from 51 producers in total, with 32 (50%) rated 90-plus on the 100-point quality scale. 17 entries came from the 2019 vintage, 13 of these rated 90-plus and when considering the Top 10 specifically, 2019 made up seven of them. As for the vintages either side, wines from 2018 in many instances are starting to look quite evolved and probably should not be kept for much longer while those from 2020, by contrast, tend to appear youthful and unresolved.

With respect to which growing area predominates, Stellenbosch again had the most wines in the Top 10 with six, followed by two multi-site blends from Nederburg and then Voor Paardeberg and Walker Bay with one each.

Though the 2019 growing season was difficult, with the Autumn rains presenting growers with the problems of rot and uneven ripeness, those who managed to prevail seem to have made particularly pure and precise wines. Judging phenolic ripeness (the flavour and texture imparted by tannins) has always been key in making great Cab but it seems producers are becoming more and more astute avoiding both wines that are either unnecessarily astringent or too soft and “squishy”. Equally, how maceration (the extraction of colour and tannin) is handled in the cellar also seems defter.

The average price of the 32 wines to rate 90-plus is R303 a bottle and of the Top 10 is R353. Offering the best quality relative to price is Maastricht 2020 with a rating of 91 and selling for R130 a bottle.

Koelenhof, as producer of the wine judged best overall, wins a 2BFermControl organic fermentation kit worth approximately R11 000.
